## OBJECTIVE

---

To work in a good environment where I can use my skills in IoT, embedded systems, and automation, learn new things, and contribute to real-time projects as a team member.

## WORK EXPERIENCE

---

### Robotics Internship – Innomayi Technologies Private Limited

Dec 2025 – Mar 2026

- Successfully completed a hands-on robotics internship as a Research Associate, working on real-time automation systems.
- Gained practical experience with sensors, embedded systems, and hardware integration.
- Contributed to team-based projects, demonstrating strong problem-solving and research skills.
- Worked under the guidance of industry experts to develop technical knowledge in robotics and intelligent systems.

## PROJECTS

---

### • Pneumatic Powered Air Engine – Diploma Project

- Designed and developed a **compressed air engine** that converts stored compressed air into mechanical energy.
- Engineered a system where compressed air drives a piston to generate motion for powering machinery or vehicles.
- Focused on improving **efficiency and environmental sustainability** by utilizing clean, emission-free energy.

### • Rory The Robot Plant – Real Time Project

- Developed an **interactive robotic plant** that blends **technology and nature** for an engaging user experience.
- Integrated **touch and motion sensors** to enable lifelike interactions, responding to environmental stimuli.
- This project highlights the integration of **hardware and software**, demonstrating the potential of lot and wireless communication in robotics.

# EDUCATION

| Degree  | Specialization                                | Institute                               | Year | GPA  |
|---------|-----------------------------------------------|-----------------------------------------|------|------|
| B.Tech  | Computer Science and Engineering in IoT (CSO) | ACE Engineering College, (Pursuing)     | 2026 | 8.08 |
| Diploma | Mechanical Engineering                        | Jawaharlal Nehru Government Polytechnic | 2023 | 9.63 |
| SSC     | -                                             | ZPHS Cherlapally                        | 2020 | 10   |

# SKILLS

- **Languages:** Arduino language, Python, MySQL
- **Tools:** MS Word, MS Excel, Power BI, Jupiter Notebook, VS Code, Arduino IDE
- **IoT Tools:** IFTTT, ThingSpeak
- **AI Tools:** ChatGPT, Gemini AI, Copilot, Bolt, Napkin AI

# EXTRA-CURRICULAR ACHIEVEMENTS / ACTIVITIES

- Completed **Flipkart SCOA – Warehousing (Digital) Training Program**, gaining knowledge in warehouse operations, inventory management, logistics processes, and digital supply chain practices.
- Actively participated in "**Wings of Innovation**", a **2-day comprehensive Drone Workshop** held on **1st & 2nd March 2024**.
- Completed a Skill Upgradation Program in **AutoCAD 2D & 3D** at the **National Small Industries Corporation (NSIC), Hyderabad (Aug 2022)**. Achieved an **A1** grade in performance evaluation.
